Chapter 1: Summary of Key Findings	1
About the Study	1
Public Policy	1
Delivery Models and Providers	2
Participation and Enrollment	4
Supporting Quality in ECE	5
Expectations for Child Outcomes	6
Chapter 2: Introduction	9
The Policy Questionnaire	9
Definition of Early Childhood Education (ECE) Programs	10
Participating Countries	11
Methodology of the Policy Questionnaire	11
Structure of the Policy Report	12
Chapter 3: Overview of the Structures of the Early Childhood Education and Care Systems in the Participating Countries	13
Structure of ECE Systems	13
Parental Leave	17
Final Remarks	19
Chapter 4: Public Policy	21
Policy Aims	21
Governance and System Management	24
Legislative Status and Statutory Entitlements for Children and Parents	30
Policy Changes	37
Chapter 5: Delivery Models and Providers	43
Setting Types and Characteristics	43
Target Populations	56
Setting Enrollment Rates	57
Setting Funding Strategies	58
System Transitions	62
Chapter 6: Participation and Enrollment	65
Levels of Participation in ECE Programs for Children from Subgroups of the Overall Population	66
Children from Low-Income Families	66
Children with Special Needs or Disability	68
Children from a Minority Ethnic Group	68
Children whose Home Language is Different than the National Language	68
Prioritizing or Targeting Strategies for ECE Enrollment	69
Diversity and Cultural Responsiveness of Settings	71
Coverage and Availability of ECE Provision	73
Costs to Parents for Participation in ECE	77
Targeted Early Intervention Programs	78

Chapter 7: Supporting Quality in ECE	81
Regulatory Environment	81
Staff Qualifications, Training and Remuneration	86
Group Size and Ratios	105
Health and Safety Measures	108
ECE Curriculum Guidance and Pedagogic Approaches	109
Parental Participation In Learning	115
Accreditation, Inspection, Reporting and Accountability	117
Chapter 8: Expectations for Child Outcomes, Assessment and Reporting	129
Expectations for Child Outcomes	129
Assessment Methods	131
Reporting of Outcomes Data	134
Use of Child Outcomes Data	135
Chapter 9: Individual Country Profiles	139
Country Profile: Chile	140
Country Profile: Czech Republic	143
Country Profile: Denmark	146
Country Profile: Estonia	149
Country Profile: Italy	152
Country Profile: Poland	156
Country Profile: Russian Federation	159
Country Profile: United States	162
Chapter 10: Final Reflections: Emerging Policy Issues	167
Public Policy	168
Delivery Models and Providers	172
Participation and Enrollment	172
Supporting Quality in ECE	173
Expectations for Child Outcomes	176
Concluding Comments	177
References	179
Appendices	
Appendix A: Glossary	183
Appendix B: Organizations and Individuals Involved in ECES	191

List of Figures

Figure 1: The study countries	11
Figure 2: Overview of ISCED Level 0 in the eight participating countries	15
Figure 3: Length of postnatal maternity, paternity and parental leave (in weeks)	18
Figure 4: Age of start of ISCED Level 1	31

List of Tables

Table 1: Percentage enrollment in formal care and preschool by age phase in study countries	17
Table 2: Stated policy aims for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	23
Table 3: Level of government responsible for setting ECE policy for children aged 0–3 years (ECED) and children aged 3 to the start of primary schooling (PPE)	25
Table 4: Bodies or ministries responsible for children aged 0–3 years (ECED) and children aged 3 to the start of primary schooling (PPE)	28
Table 5: Statutory entitlements to services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	32
Table 6: Statutory entitlements to parental leave and pay for parents of children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	34
Table 7: Key policy changes for services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	38
Table 8a: Main setting types and characteristics of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Chile	44
Table 8b: Main setting types and characteristics of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in the Czech Republic	46
Table 8c: Main setting types and characteristics of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Denmark	47
Table 8d: Main setting types and characteristics of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Estonia	48
Table 8e: Main setting types and characteristics of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Italy	49
Table 8f: Main setting types and characteristics of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Poland	50
Table 8g: Main setting types and characteristics of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in the Russian Federation	52
Table 8h: Main setting types and characteristics of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in the United States	53

Table 9:	Enrollment rates for children aged from 0–3 years (ECED) and from 3 years to the start of primary schooling (PPE) at different ages	57
Table 10:	Supply-side funding from central funds for children aged from 0–3 (ECED) and children aged from 3 to the start of primary schooling (PPE)	59
Table 11:	Demand-side funding for children aged from 0–3 (ECED) and children aged from 3 to the start of primary schooling (PPE)	61
Table 12:	Child characteristics and enrollment levels of children aged from 0–3 years (ECED) and children aged from 3 years to the start of primary schooling (PPE)	67
Table 13:	Existence and focus of prioritizing regulations for children aged 0–3 years (ECED) and children aged from 3 to the start of primary schooling (PPE)	69
Table 14:	Diversity and cultural responsiveness strategies for children aged 0–3 years (ECED) and children aged from 3 years to the start of primary schooling (PPE)	72
Table 15:	Existence of universal coverage of services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) and areas of limited service availability	74
Table 16:	Strategies to increase coverage of ECE provision for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	76
Table 17:	Existence of targeted early intervention programs at target groups for children aged 0–3 years (ECED) and children aged 3 to the start of primary schooling (PPE)	79
Table 18a:	Regulatory responsibilities at national level for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	83
Table 18b:	Regulatory responsibilities at subnational level for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	84
Table 19a:	Main staff and leader categories, minimum qualification level, continuing professional development (CPD) opportunities, and average annual remuneration level in US\$ of staff who work in services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Chile	88
Table 19b:	Main staff and leader categories, minimum qualification level, continuing professional development (CPD) opportunities and average annual remuneration level in US\$ of staff who work in services for children aged 3 to the start of primary school (PPE) in Czech Republic	89
Table 19c:	Main staff and leader categories, minimum qualification level, continuing professional Development (CPD) opportunities and average annual remuneration level in US\$ of staff who work in services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Denmark	90
Table 19d:	Main staff and leader categories, minimum qualification level, continuing professional development (CPD) opportunities, and average annual remuneration level in US\$ of staff who work in services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Estonia	91

Table 19e: Main staff and leader categories, minimum qualification level, continuing professional development (CPD) opportunities, and average annual remuneration level in US\$ of staff who work in services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Italy	94
Table 19f: Main staff and leader categories, minimum qualification level, continuing professional development (CPD) opportunities and average annual remuneration level in US\$ of staff who work in services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in Poland	96
Table 19g: Main staff and leader categories, minimum qualification level, continuing professional development (CPD) opportunities and average annual remuneration level in US\$ of staff who work in services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in the Russian Federation	98
Table 19h: Main staff and leader categories, minimum qualification level, continuing professional development (CPD) opportunities and average annual remuneration level in US\$ of staff who work in services for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE) in the United States	101
Table 19i: Distribution of educational attainment for staff who work in settings that serve children birth to three years in the United States	102
Table 19j: Distribution of educational attainment for staff who work in settings that serve children three years to not-yet-in-kindergarten in the United States	103
Table 19k: Qualifications of staff who work as teachers in private and public primary schools in the United States	103
Table 20: Regulated group size for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	106
Table 21: Regulated staff:child ratios for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	107
Table 22: Existence and scope of health and safety regulations for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	108
Table 23: Existence and content of curriculum guidance for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	111
Table 24: Areas of learning included in curriculum guidance for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	113
Table 25: Pedagogic approaches promoted in national guidance for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	114
Table 26: Existence of guidance on parental partnership and level of parent participation in settings for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	116

Table 27:	Existence of a responsible body at national or subnational level for the accreditation of settings for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	118
Table 28:	Existence of a responsible body at national or subnational level for the inspection of settings for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	120
Table 29:	Aspects of quality assurance processes covered by accreditation for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	121
Table 30:	Aspects of quality assurance processes covered by inspection for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	122
Table 31:	Reporting of results of accreditation of settings for children aged 0 to 3 years (ECED) and children aged 3 to the start of primary school (PPE)	123
Table 32:	Reporting of results of inspection of settings for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	124
Table 33:	Use of accreditation results of settings to inform the development of policy and practice in settings for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	125
Table 34:	Use of inspection results of settings to inform the development of policy and practice in settings for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	126
Table 35:	Expectations for child outcomes in different areas of learning and development for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	130
Table 36:	Existence of national or subnational child assessments in different areas of learning and development for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	132
Table 37:	Assessment methods used for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	133
Table 38:	Recipients of reporting of child outcomes data for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	134
Table 39:	Use of child outcomes data for children aged 0–3 years (ECED) and children aged 3 to the start of primary school (PPE)	136
